🐱 PORTFOLIOS

portfolio

<https://github.com/SpiffyEight77/portfolio>

Distributed key-value database based on Raft and Percolator models

- Implementation based on Vue.js design.
- Supports PWA (Progressive Web App) features, screen adaption.
- Support for one-click deployment to Vercel

statesWidget.js

<https://gist.github.com/SpiffyEight77>

Status scripts running on the iOS 14 Scriptable App

- Design implementation based on JavaScript and Scriptable API.
- Support for desktop widgets to display functions such as power, local weather, annual progress, etc.

🏆

- Mathematical Contest In Modelling 2017 Honorable Mention 01/2017
- The ACM-ICPC Asia Regional Contest Xi'an Site 2017 Honorable Mention 10/2017
- The Blue Bridge Cup National Software Competition 2017 Third Prize 05/2018

⚙ SKILLS

- Programming Language:** multilingual (not limited to any specific language), experienced in Golang, comfortable with JavaScript/C
- Developing Tool:** familiar with Linux-based programming, Vim use, have experience with team tools like Git, Trello, etc.
- Others:** have experience using MySQL/Redis, understand Docker and Docker orchestration concepts.

i MISCELLANEOUS

- Personal Tags: self-driven, strong learner, conscientious, responsible, curious, love open source
- Interest: Distributed systems, cloud computing, virtualisation and web applications, etc.
- Language level: English CET-4, TOEIC 695 Able to read English materials
- Access to information: via Twitter, Medium, Hacker News, Telegram channels.
- Work gap: leave to rest at home, spend time with parents, study English and take the ETS TOEIC exams.
